

# Johanson Part Number VBEH302W122M2GV001B

|                                                                                   |                                                                       |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------|
| Johanson Part Number: VBEH302W122M2GV001B                                         | Johanson Company: JDI                                                 |
| Legacy P/N: 302S48W122MV6-BME                                                     | Size for Capacitors (EIA): 2225                                       |
| Description: Capacitors HVS BME, 2225, X7R, 3000V, 1200pF±20%, Ni/Sn (RoHS), Bulk | Specification Number: None                                            |
| Life Cycle Stage: Active                                                          | NCNR: No                                                              |
| AEC Q200 Qualified: No                                                            | Thickness (Max): 0.160                                                |
| Schedule B: 8532.24.00.20                                                         | Thickness (Min): None                                                 |
| ITAR: No                                                                          | End Band(Min): 0.01                                                   |
| ECCN: EAR99                                                                       | End Band (max): 0.040                                                 |
| RoHS Compliance: Yes, RoHS 10/10                                                  | Standard Item: Yes                                                    |
| REACH: Yes                                                                        | Lead Time Typical (Weeks)*: 16                                        |
| Country of Origin: US, MX, TW, or CN                                              | Length (Min): 0.215                                                   |
| Product Family: Capacitors                                                        | Length (Max): 0.235                                                   |
| Product Subfamily: Capacitors High Voltage SMD ≥ 500V                             | Width (Min):0.240                                                     |
| Capacitance Value: 1200.000                                                       | Width (Max): 0.270                                                    |
| Cap Unit of Meas: pF                                                              | Part Weight (mg): 590.00                                              |
| Tolerance: ±20%                                                                   | Packaged Width (lb) Arm: None                                         |
| Voltage: 3000.0                                                                   | Packaging: Bulk                                                       |
| Dielectric Temp Coefficient: X7R                                                  | Packaging Qty: None                                                   |
| Termination: 68                                                                   | Operating Temp Range: -55°C to +125°C                                 |
| Marking: EIA Mark                                                                 | Storage Temp Range (Packaged): -65°C to +125°C                        |
| Product Release Date: Jan. 4, 2006, 8 a.m.                                        | Storage Temp Range (None Operating): +5°C to +40°C with RH 20% to 70% |
| Harmonization: 8532.24.00.20                                                      |                                                                       |

\*This can vary significantly so it is important to obtain a quotation with lead time for production planning purposes.
